

wrestling package

Mats.
Locker Rooms.
Weight Rooms.
Training Tables.

"We want to give our wrestlers at the University of Missouri every opportunity to succeed in an environment that is equipped with the most proactive antimicrobial treatment," Brian Smith, Head Coach, University of Missouri and Wrestling Package user.

Chosen treatments & products of the National Wrestling Coaches Association

wrestling package includes:

- NWCA approved and EPA registered antimicrobial treatment that inhibits the growth of bacteria, mold, and fungi on any surface 24/7 for the entire wrestling season.
- Cleaner disinfectant designed to work in synergy with CSG antimicrobial technology. Kills 99.9% of germs and bacteria, including MRSA, Ring Worm, and Hepatitis.
- Bucketless mop and re-usable microfiber pads for easy application throughout a wrestling facility.

A proud partner of the National Wrestling Coaches Association (NWCA), CSG has developed the Wrestling Package to provide wrestling programs with an affordable way to eliminate illness-causing microorganisms and inhibit microbial growth 24/7 on any surface for the entire season. Great for use on mats, locker rooms, training tables, and weight rooms.

Pricing starts at \$449 for the season coverage
